COURSE DETAILS: A SOUL REGRESSION LEVEL ONE - ADVANCED PAST LIFE TRAINING

Each of our lives is designed for the evolution of our soul to reach higher levels of wisdom and awareness, as well as the advancement of Humanity. Our free will choices can lead to both soul evolution, as well as karmic, less desirable actions. Past Life Soul Regression reveals dharma, or our beneficial actions in prior embodiment, that we are to embrace in current life. Our past life karma is demonstrated through present life relationships, along with physical-emotional-spiritual issues. By becoming aware of our past life karma and dharma, we can both release or embrace what has happened in prior existence to aid life today.

This 10-week breakthrough program taught by expert Dr. Linda Backman allows you to learn how to use hypnotherapy to guide clients to uncover past lives, understanding how to enhance their lives today. The course includes teaching, demonstration, and practicum. Completion of the PLSR training course provides eligibility to gain PLSR Therapist Certification.
