What Soul Evolution and Reincarnation Reveal...

Soul Evolution and Reincarnation, living one life to the next, are one and the same. As each of us discovers and accepts our past life karma, we have the opportunity to evolve as a single soul and to affect the advancement of Humanity. Plus, as you uncover the accomplishments of your past lives, called dharma, you honor and bring that soul experience into life today. Spiritual and Religious cultures worldwide, both Western and Eastern, have taught reincarnation for longer than we know.

Souls are created at a high frequency and are created specifically to function in one of three locations:

- Earth-Based Souls are uniquely designed to incarnate primarily on Earth. EB Souls evolve life to life as humans.
- Interplanetary Souls originate from a specific source in the celestial realm and do NOT incarnate primarily on Earth. IP Souls are highly experienced before they infrequently embody on Earth.
- Angelic Realm Souls serve the Divine and rarely incarnate at all. Embodiment occurs on occasion, exclusively on Earth.

ALL experienced Souls are needed by Humanity to aid the evolution of our culture.

The path of your Soul is unique to you. YET, your key purpose for being and serving on Earth is to advance Humanity. With the knowledge of benevolent intentions in life today, accepting life's hills and valleys becomes manageable and purposeful. You are never alone because our Spiritual Guides and Guardian Angels remain steadfast at our side.

In this phenomenal in-depth course, you will take your current life to an entirely new level, as you more fully understand who you ARE and ACT in profound alignment with your Soul's Purpose at this pivotal time on Planet Earth.

Course Activities:

Classes will take place on Zoom and will include teaching, sharing client Soul Regression examples, experiential meditations, interactive discussions and Q&A. Linda encourages ongoing communication with and among class participants for homework, reflections, & questions using the Slack platform.

For registrants unable to attend live sessions, videos are quickly viewable, with Linda regularly available for communication on Slack. An expert guest speaker/teacher will join Linda one session per month to present a special topic.

***Current Events on Earth will be discussed as they relate to Humanity's Evolution*

Suggested videos and reading will be a part of each month's materials.
