Past lives and life today reveal your Soul Archetype and Origin. Our soul's wisdom builds from one life to the next as we experience each incarnation. Unique qualities expand depending on whether our soul originates in the spiritual realm tied to the Earth, Interplanetary, or Angelic sphere. Your Soul Archetype, among seven possibilities, is immortal. Combine your origin, archetype, and past lives and who you truly ARE becomes undeniably apparent.

An examination of your current personality, health, and relationships uncovers your Soul Origin and Archetype. Add in a deep dive into the discovery of your past lives and you have a potent recipe to discover a clear explanation of who you are at the core. When you KNOW yourself from the "inside out" then, and only then, can you own and honor your reason for being embodied at this time. Your mind, body, and emotions have the ability to recognize their connection to your higher or soul self.

This new 6-week virtual course is taught on the Zoom platform. Dr. Backman will teach from her client Soul Regression content and will guide experiential time and class discussion. There are no course prerequisites. In this virtual course you will discover:

- Purpose and characteristics of an Earth-Based Soul (EB)
- Gifts and challenges of an Interplanetary Soul (IP)
- Qualities of an Angelic Realm Soul (AR)
- Physical and emotional health challenges for EB, IP, and AR Souls
- How and why EB, IP, and AR Souls choose to incarnate
- Past Life differences among EB, IP, and AR Souls
- Relationship attitudes toward friends, family, and romance of each Soul Origin
- Seven Soul Archetypes purpose and characteristic traits
- How each Soul Archetype interacts with another in relationships
