1. History of the Universe: Interplanetary and Earth-Based

Scientists estimate that Homo Sapien life began on Earth approximately 70,000 to 100,000 years ago. When pre-historic human life on Earth began soul incarnation called Humanity was instituted. Moderately advanced Interplanetary souls came to Earth intended to evolve the human culture over time. Most of these early soul inhabitants on Earth stayed, continuing to embody primarily on Earth repetitively. We'll learn about why IP souls came to Earth and remained to incarnate over and over on Earth. And More, you'll understand when and for what reason IP souls, from other regions of the celestial realm, have arrived in greater numbers at pivotal points in Humanity's history.

2. Advanced Interplanetary and Earth-Based Souls: Gifts and Challenges

Interplanetary souls are gifted with intuition, wisdom, and a broad range of advanced skills. Some are amazing with music, others with writing, technology, engineering, and so much more. Yet, advanced IP souls struggle, at times, to be in body on Earth. Functioning in the human body and in the human culture are foreign to IP's. Together we'll learn how to be an IP on Earth; how to be in relationship with an IP; and how to bring the gifts of advanced Earth-Based and Interplanetary souls to life today. In addition, coping and health strategies for IP's in regard to allergies, auto-immune disorders, digestive issues, social anxiety, and the like will be presented and strategized.

3. Your Soul Agreements and Guides: On Earth and in the Higher Realm

At the onset of a new incarnation we bring a portion or fractal of our entire soul energy into our body. What soul energy remains in the higher realm is our higher self. An on-going bond is always present between our Earth self our higher self. In addition, direction and support are ever-present from our spiritual guide. When we embody our life-intentions are set in place as a blue-print for the new life. Your higher self also has purpose and commitment in the higher realm. Specific examples of how Interplanetary guides and life plan may differ from an Earth-Based soul will illuminate this class. How to become aware of your guide and life agreements will be the focus.

4. Interplanetary Soul Home Base: Arcturus, Mantid, Pleiades, and Elsewhere

Upon the completion of an incarnation the portion of our soul energy that resided with an embodiment returns automatically to its home base called our higher self. The dwelling place of our soul is a frequency in the celestial realm. Your soul home base is unique. As an Earth-Based Soul you inhabit an energetic space tied to the Earth. When you're an Interplanetary Soul the locale of your origin is attached to a non-Earth domicile. IP Souls come from a location in the celestial realm that may be inside or outside of the solar system that contains Earth. Each IP home base is unique. At times the higher-self residence of an IP may be labeled with a familiar name, at other times not. IP home base cultures vary, one from the other. An IP locale can have density or no density, a human-like container or not. Examples and the unique qualities of various IP homes will be shared.

5. Interplanetary and Earth-Based Souls: Working Together for Humanity

An increase in the number of embodied IP Souls happens at vital points in Earth's history, intending to advance our human culture. On Earth today we are experiencing one of those critical times when advanced EB's must work in conjunction with IP's to increase the likelihood of Humanity's evolution. Earth life is greatly in need of balance in to honor all life: people, animals, plants, as well as the planet itself.

This virtual course is designed for teaching, experiential, and interaction time with all participants. Dr. Linda Backman will share a myriad of client case examples to deepen and expand the value of this program. We will come together to work in community and expand the evolution of Humanity. ***REGISTER TODAY!***
