Periodic Guests
Channeling with Maitreya, the most longstanding
Guide in the Earth's Higher Realm
Teaching, Sharing, Q/A, and Discussion

Contact Earl@RavenHeartCenter.com to receive Zoom instructions to join us live.

Our September Special Guest:

Linda and Earl are delighted to be joined by special guest Dr. Sean Esbjörn-Hargens for the meeting on Wednesday, September 9!

Dr. Sean Esbjörn-Hargens got his PhD in Humanities focused on Philosophy, Cosmology, and Consciousness from the California Institute of Integral Studies. He is a recognized global leader in the application of integrative thinking and research methodologies in both academic and organizational contexts. His work is characterized by going beyond disciplines into what he calls a metadisciplinary approach. These are big picture approaches that integrate dozens of disciplines from the hard sciences, social sciences, arts and humanities.

In 2004 Sean founded and served for nine years as executive editor of the *Journal of Integral Theory and Practice*, an academic peer-reviewed journal. In this role he published 4000-pages of material from over 100 authors. Between 2006 and 2011 he created and served as chair of a number of new graduate masters and certificate programs at several universities including John F. Kennedy University (JFKU) and Fielding Graduate University. Sean is the founding editor of the SUNY series in Integral Theory. Since 2008 twelve volumes have been published. Sean has published two dozen articles and book chapters. He has also authored or edited eight books including: *Integral Ecology* (co-authored with Michael E. Zimmerman), *Metatheory for the Twenty-first Century* (co-edited with Roy Bhaskar et al), *Dancing with Sophia* (co-edited with Michael Schwartz) and *Big Picture Perspectives on Planetary Flourishing* (co-edited with Nicholas Hedlund). He is currently co-editing an anthology on integrative metatheory for Routledge.

Sean has made significant contributions to the fields of integral research, integral ecology, integral business, integral education, integral philosophy, and anomalous studies. In 2011 he created MetaIntegral, a leadership and consulting company that works with a variety of mainstream and progressive mission-driven companies to measure four types of social impact. In 2018 he founded The Institute of Exo Studies through which he is joining others in pioneering the field of exo studies. Exo studies draws on over 50 disciplines to help make sense of anomalous and extraordinary experiences of our multiverse in all its complexity and mystery. In 2022 he launched his multiphase mixed-methods research project on super experiencers which can be viewed at www.superexperiencer.org. Sean serves as the Program Director of an accredited online graduate program in Integral Noetic Sciences, which offers concentrations in Anomalous Studies, UAP & Consciousness Studies, and Parapsychology among others.

Are you ready for a "Conversation" about the core of you, and about the core of life? As a Soul, you agreed to come to Earth at this time to grow and evolve. At the same time, your Higher Self is busy coordinating responsibility to guide Humanity from the higher realm.

Our time together will answer many questions. For example: From where does your Soul originate? What is the explanation for having a life with many health issues and relationship dysfunction? What happens when we transition into the Afterlife? Which past lives affect you the most?

We never come to Earth without purposeful intent. What is yours?

How can you cope more effectively with being sensitive to energy?

Dr. Linda is a psychologist with nearly 5 decades of experience, having guided Soul Regression since the mid-nineties. Dr. Earl spent more than thirty years as a university professor and administrator. Since early childhood, Earl has been intuitive, remembering his past lives, which has made him a capable channel.

This new program with Earl and Linda will bring forward understanding about teamwork with the Backman's fifty-eight years of marriage. You'll learn more about Soul Archetype and the blend of two different archetypal energies to aid romantic, family, and friendship relationships.

Simply, you'll have a golden opportunity to listen, ask questions, and learn from the Drs. Backman and many other highly unique guests. Our guests will have diverse life experiences related to spirituality, including Millennials and Gen Z, comedy writers, noetic researchers, mediums, Interplanetary and Angelic Realm Souls, accomplished entertainers, military special ops, and so much more.

One more thing: This is a no-fee Zoom program open to anyone.

Earl and Linda truly hope you'll join us.
